## Replicate the R code

Note: If you wish to replicate the R code below, then you will need to copy and paste the following commands in R first (to make sure you have all the packages and their dependencies):

```
install.packages(c("install.load", "iemisc", "units"))
# install the packages and their dependencies

# load the required packages
install.load::load_package("iemisc", "units")
# load needed packages using the load_package function from the install.load
# package (it is assumed that you have already installed these packages)
```

```
import::from(fpCompare, "%==%")
```

## Fraction (or Mixed number) to a Decimal (Numeric Vector)

## Example 1

```
trxt <- "1 1/3"
frac_to_numeric(trxt)
## [1] 1.333333
tlrxy <- "4 1/8 inches"
frac_to_numeric(tlrxy)
## [1] 4.125
tmrxy <- "12 13/16 inches"
frac_to_numeric(tmrxy)
## [1] 12.8125</pre>
```

## Construction Decimal

```
t1 <- "34'-3 1/2\""
t2 <- "34-3 1/2\""
t3 <- "34' 3 1/2\""
t4 <- "34'-3 1/2"
t5 <- "34-3 1/2"
t6 <- "34 3 1/2"
t7 <- "34 ft 3 1/2 in"
t8 <- "34 3 1/2"
t9 <- "34 fts 3 1/2 in"
t10 <- "34 foot 3 1/2 in"
t11 <- "34 foot 3 1/2 inch"
t12 <- "34 foot 3 1/2 in"
t13 <- "34 feet 3 1/2 in"
t14 <- "34 feet 3 1/2 inch"
t15 <- "34 feet 3 1/2 in"
t16 <- "34 FEEt 3 1/2 IN"
# a)
```

```
(construction_decimal(t1, result = "traditional", output = "vector") * construction_decimal(t2,
   result = "traditional", output = "vector") * 4)/43560 # acres
## [1] 0.1079815
# b)
(construction_decimal(t1, result = "traditional", output = "vector")^2 * 4)/43560 # acres
## [1] 0.1079815
# a) and b) can be expressed using the following as well:
t1_ft2 <- set_units((construction_decimal(t1, result = "traditional", output = "vector") *</pre>
    construction decimal(t2, result = "traditional", output = "vector") * 4), US survey foot^2)
